M J Cataldo 2013 Landscape Design Rates

DIY: Customer fills out our on-line *residential survey*, takes their own pictures and measurements and schedules an appointment to meet with a staff member at the garden center. We will review your information and help you select your plants. There is no charge for this service. To schedule an appointment, please call 978-486-4331.

Level 1 Site Visit: 45 Minute at home consultation where answers to questions on plant suitability and issues are given as well as general design ideas. The charge for this is \$75.00 paid upon scheduling. Available to homeowners within our service area.

Level 2 Site Visit: All of the services of a Level 1 Site Visit, plus measurements and pictures are taken and a hand drawn plan with a suggested plant list with prices is produced. The charge for this is \$95 per hour with a 2 hour minimum. The designer will provide an estimate at the consultation based on the scope of work. (A typical front yard foundation planting plan with site visit would take about 3 hours.) If Cataldo Landscaping is hired to plant your project, we will credit 50% of this fee toward your total project cost.

Landscape-to-Go Design Service: Whether you've filled out our on-line survey or we came to you for a site visit, we will deliver up to 30 container plants and any needed bagged fertilizer and mulch to your home and a designer will spend up to one hour placing them with you in your prepared beds for you to plant. You select only the plants that you like, and we will bring back the rest. We will provide planting and watering instructions. The charge for this service is \$225 plus plant and planting material cost paid upon delivery. If, once the plants are placed you decide that you would rather have us plant them for you, we would be happy to provide an estimate and schedule a time to do that.
